As an alternate option to a 2-step form, we should A/B test a single page form for new users. Returning users with default information set will go directly to Review.

Single Page Form:

- + 1 Call to action (Save and Continue)
- Call to action below the fold
- Many field intimidation factor

2 Step Form:

- 2 Calls to action (Save and Continue)
- + Calls to action above the fold
- + More digestible amounts of fields
- + Error messaging and Melissa suggestions are more relevant to onscreen information, with no need to scroll.

*Note: Melissa suggestion, changing addresses, payment errors would return to the divided Ship To and Payment design. Only users without information saved would see the single page form.

Where does Gilt ship?

International FAQ's

[Where does Gilt ship?](#)

Which items are eligible for international shipping?

Gilt offers international shipping on most items. However, certain items are not eligible:

- Oversized items, items requiring special handling or in-house delivery
- Items over \$2500 USD in value (up to \$5000 USD in value for Canada).
- Hazardous materials, live botanicals, aerosols, food and beverage products, perishable items and other items restricted from exporting.
- Items with licensing restrictions.
- E-Gift Cards, which may be purchased with a U.S. Billing Address only.

If there are any items that cannot be exported from the U.S. or imported into your destination country selection, you will be notified during the checkout process (before your order is submitted).

For Canada, the Region field should be labeled as "Province" and the field is a drop down. Here's the province code to province name mapping.

province_code	province_name
AB	Alberta
BC	British Columbia
MB	Manitoba
NB	New Brunswick
NL	Newfoundland and Labrador
NT	Northwest Territories
NS	Nova Scotia
NU	Nunavut
ON	Ontario
PE	Prince Edward Island
QC	Quebec
SK	Saskatchewan
YT	Yukon

For U.S., the Region field should be labeled as "State" and the field is a drop down. (I will omit the state code to state name mapping.)

For all other countries, Region is a text field.

Region is optional for all countries except for Canada and U.S.

PostalCode is optional for the following 13 countries:

country_code	country_name
CR	COSTA RICA
CO	COLOMBIA
BB	BARBADOS
AE	UNITED ARAB EMIRATES
BZ	BELIZE
BO	BOLIVIA
MO	MACAU
JM	JAMAICA
IE	IRELAND
HK	HONG KONG
GD	GRENADA
DM	DOMINICA
PA	PANAMA

You can perform minimal client side validation on Canadian postal code by checking that the customer input satisfies the following pattern:

NDN DND where N is a number and D is a digit. (ex A1B 2C3)

The two tokens ('NDN' and 'DND') can be separated by a dash "-" or space.

```

firstName      text (1-100 char.)
lastName       text (1-100 char.)
addressLine1   text (1-35 char.)
addressLine2   text (1-35 char.) - optional
addressLine3   text (1-35 char.) - optional
city           text (2-100 char.)
region         text (max: 50 char.) - optional for all countries except for Canada and U.S.
postalCode     alphanumeric (max: 20 char.) - optional for 13 countries above
primaryPhone   digits (10-20 char.)
email          email format (6-127 char.)

```

As an alternate option to a 2-step form, we should build and A/B test a single page form for new users. Returning users with default information set will go straight to Review.

- Single Page Form:
- + 1 Call to action (Save and Continue)
 - + Possibly faster
 - Call to action below the fold
 - Many field intimidation factor

- 2 Step Form:
- + Calls to action above the fold
 - + More digestible forms
 - + Error messaging is more relevant to onscreen information
 - + Less or no scrolling.
 - 2 Calls to action (Save and Continue)
